better remedy in the world than Pe-ru-na for systemic catarrh." S. B. Hartman, M. D.

There is a form of entarth especially prevalent in spring and summer, called by Dr. Hariman systemic catarrh.

This form of catarrh especially deranges the stomach, bowels and other organs of the abdomen. The whole mucous tract lining the stomach, liver, bowels and kidneys is in an inflamed condition, and these organs fail to per-

weak eyes, Catarth of the head and throat, skin diseases, etc. The trouble being so firmly intrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, while a waxy, pallid appearance of the skin, loss of strength and energy, and often lung affections, show that the disease is entirely destroying the bright red corpuscles and rich, nutritive qualities of the blood. Scrotula being a constitutional disease, one affecting the entire circulation, must be treated with a remedy that builds up and strengthens every part of the system, which has so long been denied the strength and nourashment it should have received from the blood. S. S. S. is the best of all blood purifiers and the greatest of all tonics, and is therefore the ideal remedy for Scrotula. S. S. S. searches out and destroys all germs, taints and poisons, gives strength, richness and vigor to the blood and cures Scrotula permanently. It so thoroughly removes the trouble from the blood that no signs of it are ever seen again, and posterity is started out in life with a clean, pure blood supply, which is their rightful inheritance. S. S. S. while therough is gentle in its action, and the healing vegetable ingrelients which compose it build up every part of the system. Book on the blood and inclical advice free.
